FIX — NOTIFICATION LISTENER

SOUND EFFECTS	ON
SHORTS + REELS	OFF

The Park — Guard drawer (day, one permission missing). Source: ui/components/ParkDrawer.kt (board rows, FIX key, sled rows, spec plate PLATE_HEAD/PLATE_BODY verbatim), service/WatchStore.kt (WatchItemId board names & order), ui/theme/Type.kt (PillBadge / DrawerHeader / PrimaryButton / AppTitle styles), ui/theme/Color.kt + Theme.kt (day scheme tokens), ui/views/BlockitSuitcaseAndSwitchesViews.kt (SledSwitchView chrome mode), ui/MonolithViewModel.kt (theme readout string). The permission primer (ShieldPermissionPrimerModal) is not rendered inside ParkDrawer, so it does not appear here.
